If We Didn't Know, We'd Have Problems.
Because We Do Know, We Have Solutions.

We like health tips, so we should know all vaccines may cause small strokes inside our bodies while chemicals are over-stimulating our immune systems. Vaccines should be avoided and mandatory vaccines don't make sense. People who want to take a "swine flu" shot shouldn't mind if others don't because the shot is supposed to protect them from the swine flu. Please visit VRAN.org for legal exemption forms, VaccineTruth.com, FalseFlagFlu.com and GenerationRescue.org -- We'll be fine if we know! ☺
